

CANUCKS SPORTS & ENTERTAINMENT
EMPLOYMENT OPPORTUNITY
(Permanent, Full-Time)

POSITION: Application & Financial Systems Analyst
DEPARTMENT: Information Technology
REPORTS TO: Senior Manager, Information Technology

POSITION SUMMARY:

As a key member of the Information Technology team, the Application & Financial Systems Analyst is responsible for financial system application support, strategy and development for both Canucks Sports & Entertainment and the Aquilini Group. In addition, the incumbent will work closely with the Central Services management team to establish, improve and integrate processes and policies to ensure effective operations. The role manages the day-to-day operations as well as future planning and projection.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

(Other duties may be assigned as required)

- Provide technical and application support for all financial systems, including but not limited to the core financial reporting, document management, data warehouse, workflow applications, and any integration software associated to/from the systems, while ensuring system functionality aligns with company policy and procedure
- Provide support for operational issues concerning the financial systems, including troubleshooting, investigating, and solving operation system issues as they relate to financial transaction and information
- Develop and manage a financial system roadmap that identifies future enhancements/upgrades
- Support various internal teams using financial systems for reporting, forecasting, budgeting, and analysis
- Establish and manage project plans and teams to manage financial system maintenance and upgrades
- Perform configuration changes as appropriate to address user needs
- Ensure all team members have the training and knowledge required to utilize IT supported financial systems accordingly
- In cooperation with the divisional finance leadership, identify future needs and proactively plan for future upgrades and enhancements
- Work with outside consultants and application developers on customization and modifications to the existing systems
- Maintain data integrity, internal controls, and audit trails, ensuring maintenance throughout all applications
- Assist in testing functionalities, data reconciliation, creating and leading QA and end user testing
- Research, evaluate, and recommend new and emerging technology; maintain knowledge of current trends, practices, and advancements in the field

REQUIRED EXPERIENCE AND QUALIFICATIONS:

- Bachelor's degree required with an emphasis on Accounting, Finance or Business
- At least five years in a corporate finance, accounting or financial analyst system role
- In-depth experience with enterprise financial systems to include Sage 300 and MS Dynamics, Crystal Reports and Power BI reporting, and associated add on modules
- Expertise with automated financial systems
- MS SQL administration experience, SSRS, SSAS, SSIS report writing
- Strong proficiency in Excel, Access and Outlook VB/VBA
- Proven math and analytical skills

- Demonstrated experience in IT audit or system administration
- Excellent communication and interpersonal skills
- Strong initiative and ability to prioritize and multi task in a fast-paced changing environment
- Extraordinary customer service and relationship management experience at all levels of an organization
- A logical and pragmatic approach to problems, while working through organizational protocols
- Ability to learn and apply technical knowledge quickly and effectively
- Ability to exercise sound judgement in complex situations
- Results-oriented and persistent when faced with obstacles

Interested, qualified candidates are invited to submit their resume online at <http://jobs.canucks.com>. This position will remain open until filled.
